## Watercolor Pencil Technique

There are many brands of Watercolor Pencils on the market. My favorite is Faber Castell because of the wide range of colors available and because of the consistency of the lead. The technique is basically the same for all brands of watercolor pencils: Scribble a little of each colored pencil onto the back side of a piece of the waxed palette paper. Using a slightly moistened paint brush (wet it and blot it once on a paper towel), pick up a little of the scribbled colored pencil with the brush. Apply the color to the stamped image using the paintbrush. Stroke over the design to smooth out the color. Apply the base color, let dry, then apply the shading color. When applying the shading, angle the brush so that the brush is nearly parallel with the paper. If the color does not blend well into the base color, you can rinse the brush, blot it, and use the brush to blend the colors together. The trick is to use very little water in the brush. For more information on my watercolor pencil technique, there is a video on Darcie's blog: <http://darcieheater.typepad.com>.

- **Flowers and Leaves** - Color using a variety of red, pink, yellow, blue, and green, as shown in sample above. Shade with darker red, pink, yellow, blue, and green, as shown.

- **3-D Bow** - Color with light blue, shade with blue.

- Use permanent adhesive to attach the Chalk Bouquet Card Stock to the front and inside of the card. Attach the Jolene Green Card Stock to the front of the card as shown, using permanent adhesive. Attach the Diagonal Stripe Blue Card Stock piece to the 4" x 1 1/4" piece of Gray Card Stock using permanent adhesive. Attach the layered piece to the front of the card, as shown using double sided foam mounting tape. Use permanent adhesive to attach the Bright White Card Stock piece with the stamped images on it to the 3 1/4" x 3 3/4" piece of Gray Card Stock. Attach the layered piece to the card front with double sided foam mounting tape, as shown in the photo above.
